

Smartware Inc. is a Cebu based company which is fully owned by CSAM Health AS, a Norwegian software development company.

CSAM is focusing on the e-health market, and was rated the fastest growing IT company in Norway in 2010 and the fastest growing e-health company in Europe the same year.

CSAM is among Norway's 40 biggest SW companies and has more than 85 installations in the Nordic countries and is now entering the UK market. As a result of our continued growth, we are seeking new employees that will join our talented and dedicated team in Cebu.

The following position is now vacant:

Senior Java Application developer

APPLICATION TEAM

The application team is responsible for developing all clinical applications on our four platforms, all of them being web-based. As a senior application developer, you will play an important role in the team, contributing to forming the application, understanding the domain and converting the requirements into an application. Our senior developers also function as mentors for other developers.

WE OFFER

- * Competitive salary and benefit scheme.
- * Flexibility on working hours.
- * Exciting and challenging tasks.
- * Highly experienced colleagues.
- * A fast growing and meaningful industry.
- * Fun at work!

REQUIREMENTS

- * Minimum of 5 years of J2EE experience.
- * Experience with web application development, main focus on GUI and user interaction.
- * Experience with applications running on web application servers, where experience with WebLogic server is preferable.
- * Experience with component based UI frame work, where experience with Oracle ADF RC is preferable.
- * Team player!
