

Smartware Inc. is a Cebu based company which is fully owned by CSAM Health AS, a Norwegian software development company.

CSAM is focusing on the e-health market, and was rated the fastest growing IT company in Norway in 2010 and the fastest growing e-health company in Europe the same year.

CSAM is among Norway's 40 biggest SW companies and has more than 85 installations in the Nordic countries and is now entering the UK market. As a result of our continued growth, we are seeking new employees that will join our talented and dedicated team in Cebu.

The following position is now vacant:

Senior Java Developer – Service Layer Team

MIDDLEWARE TEAM

The Middleware team is responsible for developing the Brainware product, which forms the foundation for all four platforms and clinical applications being made by CSAM. As a member of the service layer team, you will be contributing to forming the Brainware product, understanding the domain and converting the requirements into flexible services made available to a variety of applications. Our senior developers also function as mentors for other developers.
