

For Immediate Release

CSAM Opens New Office in Stockholm, Sweden

New location accommodates the company's rapid growth within the niche eHealth market

Oslo, Norway (December 12, 2018) - CSAM recently announced the opening of a new office in Stockholm, Sweden, which will bring together employees who work on some of the company's leading software lines - CSAM ProSang, CSAM Picsara, CSAM CIMA, CSAM Infobroker and CSAM XDS.

"Sweden is the largest market for CSAM and a strategically important one as we continue to pursue our ambitious growth strategy," said Sverre Flatby, CSAM CEO. "The new office aligns with our focus on delivering operational efficiencies, offering a single location for the sales, support and development of some of CSAM's leading software solutions in Sweden."

The new Stockholm office currently houses 35 employees who previously worked in the CSAM ProSang and CSAM Sweden offices. Employees in the ProSang office joined CSAM last year when the company acquired the leading blood, cell and tissue management business from Databyrån. The previous CSAM Sweden office was the country's hub for CSAM Picsara and CSAM CIMA, two of the CSAM's top medical imaging solutions; as well as CSAM Infobroker and CSAM XDS, part of CSAM's connected healthcare solutions portfolio.

"Combining our two previous offices into one new and larger location provides a wealth of opportunities for employees to collaborate and innovate," said Linus Fred, Managing Director, CSAM Sweden. "Our new office features dedicated areas for meeting and working together, as well as areas designed to stimulate creativity and wellness."

"We are excited to welcome and meet with our customers, suppliers, partners, and colleagues in this new location," added Fred.

The new office is located at Telegrafgatan 4, SE-169 72 in Solna, Sweden.

About CSAM

CSAM is a privately-owned eHealth company delivering software solutions that enable healthcare providers to access relevant clinical information at the point of care. CSAM's headquarters are located in Oslo, Norway, with local offices in Stockholm, Karlstad, Gothenburg, Helsinki, Oulu, Tampere, and London. The company also has a fully owned software engineering subsidiary in the Philippines.

CSAM has established itself as a leading Nordic niche player in the specialized eHealth market, with a unique blend of best-in-class innovative technology and outstanding human skills. Backed by strong financial partners, CSAM aspires to achieve continued growth both organically and through selected mergers and acquisitions. For more information, visit www.csamhealth.com.
